Press Release

I have never in my life made a wire transfer personally. I have only ever had one bank account at a time as I moved thru life.

I never made a wire transfer from my businesses either. In 2019 I was asked if I could settle on a 2008 ambulance project that fell apart after the government intentionally put this company out of business.

That project / customer / friend was left devastated after Hurricane Irma ravished his island thus delaying his projects, finally asking if we could settle after 10 years. The refund was for 2 ambulances his group was donating to the local government and use of a jet on a wet lease.
